

EZ-IT

Donation Guidelines

EZ-IT is a locally owned, small business based in Rifle, Colorado that provides information technology services to businesses, governments, nonprofit organizations, and individuals in Central Colorado. As part of our effort to give back to the community, we periodically provide donations of gently used computers to people in need. Below are the guidelines we use to determine who we donate computers to. If you know of someone in need, please have them contact us directly at 970-440-7362.

- Individuals seeking a donation must demonstrate need, meaning that they are unable to purchase a computer, but would greatly benefit from having access to a computer.
- EZ-IT prioritizes children and families in need in particular. We believe that children should have access to technology, and that by having access, they will be better equipped for their future. Furthermore, some families have experienced tragedy or hardship, and having access to a computer will allow them to start rebuilding their lives or improve their current situation.
- Upon receiving a donation, individuals must verbally commit to not selling the computer for personal gain. Our donation program aims to assist people in improving their lives by using the technology we provide to them. We do not intend for the donations to be sold.
- The recipient of any donated item must reside in EZ-IT's service area. For more information on our service area, please visit our website.
- Limit of one donation per person / family.

Thank you for your interest in our donation program. For more information on this program, and other charitable opportunities, please visit our website at <http://www.ez-it.biz>
